Sector Analysis Template

- Once completed it provides a clear view of which sectors are currently generating good returns for the business.
- This helps you in selecting sectors where you have already been financially successful.
- It helps you to decide on eliminating resources on sectors that are not a priority until they meet the financial returns that are acceptable to the business.
- It enables you to plan and focus sales and marketing efforts and resources in areas when you can achieve an acceptable financial return.

Template 1 – The Sector Analysis Template of your existing clients

Company	Size of Company	Financial Viability	Sector
Client name	Turnover	Gross margin or profit margin % on that client	What market sector is your client in?
